रीविज़िटिंग हिस्ट्री: आइडियाज़ एंड प्रैक्टिस पर राष्ट्रीय वेबिनार का आयोजन

आज दिनांक 25 जनवरी 2022 को हिमाचल प्रदेश केंद्रीय विश्वविद्यालय के स्थापना सप्ताह 2022 के अंतर्गत विश्वविद्यालय के इतिहास विभाग द्वारा रीविज़िटिंग हिस्टी: आइडियाज़ एंड प्रैक्टिस विषय पर एक दिवसीय राष्ट्रीय वेबिनार का आयोजन किया गया। वेबिनार की शुरुआत उत्तर-पूर्व भारत की कला एवं संस्कृति एवं उत्तर-पश्चिमी भारत से सम्बंधित अभिलेखीय सामग्रियों की चित्र प्रदर्शनी के साथ की गयी। वेबिनार की अध्यक्षता करते हुए प्रो. एस.पी. बंसल, कुलपति, हि.प्र.के.वि., ने इस विषय की समसामयिकता और महत्व पर ज़ोर देते हुए कहा कि इतिहास विषय को समग्र रुप से समझते हुए भारतीय इतिहास के कई आयामों पर पुनर्विचार तथा पुनर्लेखन की आवश्यकता है। वेबिनार के बीज वक्ता के रुप में जवाहरलाल नेहरू विश्वविद्यालय, नई दिल्ली से सेवानिवृत्त मध्यकालीन भारत के विद्वान इतिहासकार प्रो. दिलबाग सिंह ने कहा कि भारतीय इतिहास को लिखने में पश्चिमी मॉडल को अपनाना इतिहास के साथ खिलवाड़ है। उन्होंने कहा कि भारतीय स्रोतों से भारतीय इतिहास का निर्माण किया जाना चाहिए। साथ ही, भारतीय इतिहास में पुनर्लेखन की असीम संभावनाओं की तरफ ध्यान आकृष्ट करते हुए उन्होंने इस बात पर भी बल दिया कि इतिहास के पुनर्लेखन के स्पष्ट विचार एवं उद्देश्य होने चाहिए। उन्होंने यह भी कहा कि फ़ारसी इतिहासकारों के द्वारा लिखित मध्यकालीन शासक वर्ग के इतिहास में समकालीन शासन का विरोध करने वालों, जैसे राजपूतों, सिखों, मराठों आदि, को इतिहास में जगह नहीं दी गयी। इस ऐतिहासिक विसंगति के ऊपर काम होना आवश्यक है। वेबिनार के विशिष्ट वक्ता हिमाचल प्रदेश विश्वविद्यालय, शिमला के इतिहास विभाग के प्रो. अरुण कुमार सिंह ने केंद्रीय विश्वविद्यालय के इतिहास विभाग को हिमाचल के नदियों के आस-पास बसी संस्कृतियों को ध्यान में रखते हुए शोध करने के लिए प्रेरित किया। साथ ही, विश्वविद्यालय में प्राचीन इतिहास एवं पुरातत्व विभाग तथा दर्शनशास्त्र के नए केंद्र स्थापित करने की भी बात की। वेबिनार का आरंभ प्रो. नारायण सिंह राव, विभागाध्यक्ष, इतिहास विभाग के द्वारा स्वागत भाषण तथा विभाग की गतिविधियों के बारे में चर्चा करने से किया गया। इतिहास विभाग के सह आचार्य डॉ. कॅंवर चंद्रदीप सिंह ने बीज वक्ता, विशिष्ट वक्ता एवं सभी प्रतिभागियों के प्रति धन्यवाद ज्ञापन प्रस्तुत किया। इस वेबिनार के संयोजक इतिहास विभाग के सहायक आचार्य डॉ. राजीव कुमार थे।

ABOUT THE PROGRAMME

Research provides new domain of knowledge, new theories and laws, solution to a problem and open new areas of thought. Further, it has the potential to question and analyse the existing theories in accordance to the present circumstances. Hence, it is important for educational/professional academicians and researchers to be acquainted with the process of research, i.e. research methodology. Creation and dissemination of knowledge through research is one of the core functions of the higher learning institutions. Apart from generating new knowledge, the higher learning institutions, particularly the universities also have the responsibility of training the intellectual manpower required for all sectors of the society. It is worth mentioning that research is a systematic process and the knowledge of research methodology helps to understand what to do in specific situation. Therefore, it is very much important for a researcher to know all the aspects and steps of research process in order to make it systematic to a greater degree and hence, to stop the question to the reliability and validity of his/her work. This Workshop on Research Methodology and Research Ethics in Social Sciences shall make the young researcher/faculties familiar with the various aspects, tools and steps of conducting social science research. The participants will be introduced to various methods of doing research, i.e. quantitative, qualitative as well as mixed method approach. Special emphasis will be given to the concept of ethics in social science research.

Research Methodology is a way to systematically solve the research problem. A researcher must know the rationale for using specific methods or techniques and establish their relevance. Methodology may be understood as a science of studying how research is done scientifically. Each discipline within the social science is informed by its research paradigms and each paradigm is associated with attendant methodologies. Methodology, thus, refers to the rationale and the philosophical assumptions that underline any natural, social or human science study (Mc Gregor & Murnane 2010). Research involves answering unanswered questions or exploring something which currently does not exist (Goddard & Melville, 2004). The Advanced Learners Dictionary of current English lays down the meaning of research as a careful investigation or inquiry especially through search for new facts in any branch of knowledge. Redmen & Mory (2009) define research as a systematized effort to gain new knowledge. Social Science research assumes significance from the nature of problem being identified and the possible solutions, since it has a larger impact on the day-to-day activities of the common man. Over the years, it has been found that the quality of research output has been far from the much-needed standards and have been found lagging behind by the standards of ethics. A research work must act as a catalyst for further researches to be undertaken in the said field. In the recent past, many new dimensions of research have emerged catering to the vast changes taking place in the present-day social situation. The quality of research depends on the understanding of the research problem, the attendant research methodology and the appropriate tools used for the analysis. The need to impart expertise and skills in research is, thus, imperative. Hence, it is felt that a one-week workshop on Research Methodology and Research Ethics in Social Sciences be conducted for research scholars pursuing their doctoral studies in the social sciences as well as young faculties of various disciplines in social sciences.

The proposed workshop seeks to address these concerns with the MPhil, PhD scholars and young academics/faculty members in addressing the core questions of doing research, the process to conduct so systematically while taking care of research ethics at the same time.

प्रथम सत्र के दौरान अमर उजाला लखनऊ के विरष्ठ पत्रकार श्री सचिन त्रिपाठी ने विद्यार्थियों को शिक्षा क्षेत्र से संबंधित ख़बरों के परिकल्पन से लेकर लेखन तक की संपूर्ण प्रक्रिया से अवगत कराया. श्री त्रिपाठी ने शिक्षा बीट से जुड़ी बारीकियों को कार्यशाला के पतिभागियों के साथ विस्तृत रूप से साझा किया. उन्होंने प्रतिभागियों को शिक्षा क्षेत्र की खबरों के सीत खोजने से लेकर उन ख़बरों को लिखे जाने तक की पूरी प्रक्रिया की विस्तृत जानकारी दी. उन्होंने कहा कि किसी भी क्षेत्र में ख़बरों की कमी नहीं होती है बस आवश्यकता होती है 'न्यूज़ सेंस" विकसित करने की. नवोदित पत्रकारों को अपनी बीत से जुड़ी प्रत्येक बारीकी को समझना चाहिए. मुख्यतः शिक्षा बीट से जुड़ी बारीकियों की बारे में बात करते हुए उन्होंने कहा कि पत्रकार को फील्ड में जाने से पहले होमवर्क करना आवश्यक है . उन्होंने उदहारण देकर बताया कि कभी भी किसी अधिकारी या स्रोत से 'आज क्या खबर है?' नहीं पूछना चाहिए बल्कि होमवर्क के आधार पर ऐसा पूछना चाहिए कि 'अमुक बात पता चली है' या 'अमुक कार्यक्रम कि क्या स्थिति है?' आदि और ऐसे ही बातों को आगे बढ़ाते हुए ख़बर निकालनी चाहिए. पिंट मीडिया में करियर को लेकर छात्रों द्वारा पूछे गए प्रथन पर श्री विपाठी ने कहा कि इस क्षेत्र में संभावनाओं की कोई भी कमी नहीं है, ज़सरत है तो बस अपनी कलम को मांजने की क्योंकि एक मंझी हुई लेखनी कि हर बीट को ज़सरत होती है.

कार्यशाला के द्वितीय सत्र में प्रतिभागियों के सवालों का जवाब देते हुए उन्होंने इस बात पर जोर दिया कि पत्रकारिता के क्षेत्र में अपनी पहचान बनाने के लिए निडरता और अपने पेशे के प्रति पूर्ण इमानदारी की ज़रुरत है. विद्यार्थियों द्वारा यह पूछे जाने पर कि इस क्षेत्र में रोज़गार कि क्या सम्भावनाएं हैं, श्री त्रिपाठी ने बताया कि शिक्षा भारत सरकार की शिक्षा क्षेत्र से संबंधित ख़बरों की मांग में तीव्र वृद्धि आएगी. अतः जो विद्यार्थी अभी से इस और ध्यान देना शुरू कर देंगे, उनके लिए शिक्षा-पत्रकारिता के क्षेत्र में संभावनाओं एवं अवसरों कि कोई कमी नहीं रहेगी. उन्होंने सब के अंत में कहा कि शिक्षा-पत्रकारिता का क्षेत्र असीम संभावनाओं से अस हुआ है और इसमें भविष्य में रोज़गार की कोई भी कमी नहीं रहेगी. प्रशिक्षण कार्यशाला के अंत में विद्यार्थिओं से प्रतिपृष्टि ली गई जिसमें उन्होंने इस तरह कि और कार्यशाला के अंत में विद्यार्थिओं से प्रतिपृष्टि ली गई जिसमें उन्होंने इस तरह कि और कार्यशालाएं आयोजित करने की मांग की ताकि वे पत्रकारिता के विमिन्न आयानों के बारे में अच्छे से जान पाएं. कार्यशाला का समापन धन्यावाद जापन द्वारा हुआ.

Report on the live webinar organized by the Training, Placement & Outreach Cell, Department of JMC, Central University of Himachal Pradesh

The Training, Placement & Outreach Cell, Department of JMC, Central University of Himachal Pradesh has organized a virtual interactive session with Mr. Aditya Kant, Senior Assistant Editor, The Times of India, and Chandigarh for the students and faculty of the School of Journalism, Mass Communication & New Media on Friday, 4th February 2022 between 12 pm to 2 pm. Prof. Pradeep Nair, Dean, School of JMC &NM introduced the guest and briefly talked about the importance of having industry interactions for students.

During the webinar, Aditya Kant discussed the transition of news room practices in Indian news rooms from the print era to the present digital era. Delivering the talk, he said that the requirement of multi-skilled journalists has increased even in legacy news organizations like The Times of India, with the coming of the digital news outlets. He also said that the primacy of web as the most preferred news breaking outlet has also changed the way stories are planned and delivered, especially in case of spot news. According to him, the news approach has changed with newsrooms trying to put breaking news on web outlets to give quick updates while the flagship print product carries more in-depth coverage of the same event the next day. During the session, he also detailed how his newsroom is planning to cover the upcoming elections in Punjab.

After the one hour talk, he responded to the queries raised by the students regarding different aspects of newsroom practices. He has also discussed his experiences of switching to fiction writing to bridge the gap and limitations of the journalistic practice.

All faculty members of the School of JMC & NM and students and alumni of both departments under the school were present in the function. Mr. Harikrishnan B, Assistant Professor, Dept of JMC, proposed the vote of thanks.

Report on "One day Workshop on Physics Education Research" titled **Learning by Teaching** was organised by Prof O.S.K.S. Sastri, Dr Jyoti Bharadwaj and Dr Vandana Sharda where in the students from final year who have undertaken projects in implementation of quantum mechanics simulations have given lectures which are followed by hands-on sessions in the afternoon on the following topics:

- 1. Introduction to Matrix Mechanics
- 2. Implementing Matrix Mechanics for Finite Square Well Potential in Worksheet Based Environment
- 3. Implementing Matrix Mechanics for Finite Square Well Potential using Scilab Code
- 4. Implementing Matrix Mechanics for Harmonic Oscillator Potential using Scilab Code

Four of the project students have trained the rest of the class of 26 students by dividing them into smaller groups.

While the participants gained a hands-on learning on quantum mechanics simulation, the project students have developed their confidence in presentation and better clarity into their project work.

Report on

Online Faculty Development Programme (FDP) on the topic

Model Based Simulations in Classical Physics Using XCOS from 15th to 21st November, 2021

As part of the centenary celebrations of Dr. D. P. Kandelwal, founder president of IAPT, Department of Physics and Astronomical Sciences, Central University of Himachal Pradesh (CUHP) and Indian Association of Physics Teachers (IAPT) jointly organised an Online Faculty Development Programme (FDP) from 15th to 21st November, 2021on the topic Model Based Simulations in Classical Physics using XCOS.

Prof. OSKS Sastri from CUHP and Dr Pawan Kumar from IAPT were respectively convener and

organising secretary of the program.

The program started on 15th Nov at 3pm with Ved mantra chanting and created a learning environment in best Indian traditions. Prof OSKS Sastri introduced the keynote speaker Prof P. K. Ahluwalia, who spoke on "Developing Mathematical and Computational Thinking of Science Students: New Education Policy Paradigm". Prof. Ahluwalia stressed on developing computational thinking by elucidating on the various steps that lead to it with many examples. The vote of Thanks was presented by Dr Pawan Kumar, organising secretary of the program.

Next day, Prof Sastri discussed Simulation Methodology and applied to study of simple harmonic oscillator(SHO) with its implementation in XCOS. He started with the basic idea of solving differential equations using XCOS and discussed all the fine details of XCOS like picking desired blocks from palette browser and connecting them, setting parameters in various blocks and their signifi-

First session on second day of the program on 17th Nov was taken by Dr Pawan Kumar. He extended the SHO by introducing a damping term and discussed various cases such as under-damped, crtitically damped and over-damped oscillators in his presentation. The second presentation on the day was by Dr Sapna Sharma from St Bede's College Shimla and she introduced the Forced oscillator by adding a sine wave generator to the block diagram of DHO and introduced the ideas of how to take the data to scilab console for further processing to obtain the resonance curves.

On the third day of the FDP, Prof. C. Nagaraja Kumar, Punjab University talked on "Introduction to Chaos and Non-linear Systems". While it served as an introductory lecture on understanding the ideas of chaos to a beginner, the second lecture of the day by Dr . Vikram Sagar from Goswami Ganesh Dutta Sanatan Dharma College, Chandigarh on Lorentz Attractor elucidated its practical realization in XCOS. On 5th day of FDP, 19th Nov, the first presentation was on Solving Coupled Oscillator by Sapna Verma, RKMV College, Shimla. It was a very comprehensive lecture which used all the techniques and methods developed and discussed during the previous days of FDP and the second was on "Solving the Central Field Potential Problem" by Prof. O.S.K.S. Sastri. This lecture took the usage of XCOS to basic problems of Newton's law of gravitation. It showed how the shape of Earth's orbit changes for various values of n in GMm/r\n like 1.9 and 2.001 and 2. Participants realised as to why n=2 is a must for the stability of Earth to orbit around the Sun. At the end of the FDP, vote of thanks was given by Dr Pawan Kumar. In this FDP, doing assignments was necessary for getting certificate. The participants worked on their assigned projects on 20th November and on 21st November at 11: 30 am, Project Presentations by various participants were held. on the topic

Quantum Physics Simulations Using Gnumeric Worksheets
Jointly Organised by

Department of Physics and Astronomical Sciences Central University of Himachal Pradesh (CUHP) and Indian Association of Physics Teachers–Regional Council (IAPT-RC3)

The IAPT-RC3 in association with Central University of Himachal Pradesh (CUHP) has organised an online Faculty Development Program (FDP-2021) from 1st to 7th August, 2021. The convenor, Prof. O.S.K.S. Sastri, Vice-president of IAPT-RC3 has welcomed the participants and stated the main objectives of the FDP as

 To provide some new perspectives of Quantum Physics by eminent professors during the morning sessions from 11 am to 1 pm

 To introduce the UG faculty to perform simulations in quantum mechanics (QM) using Gnumeric, a free open source software. These are part of the afternoon session from 3 pm to 5 pm.

Prof S. P. Bansal, Hon Vice-Chancellor of CUHP has graced the inaugural function of the FDP and has emphsasised the need to quickly adopt the new education policy (NEP) and the importance of introducing skill sets in students by giving them opportunities for multiple entry- multiple exit and academic bank credit systems so that they are industry ready.

The key-note address has been delivered by Prof. R. C. Verma, Professor Emiretus, Patiala University. He gave the audience a two hour treat with an overview to Quantum physics by delving into need for quantum ideas, its postulates, degeneracy and it breaking in Hydrogen atom, importance of relativistic quantum mechanics and quantum field theory and finally deliberated on the epistomologial interpretations.

In the afternoon session, Prof. O.S.K.S. Sastri has given a detailed presentation of the four stage process of simulation methodology for effectively engaging the students in computer simulation labs associated with quantum mechanics, statistical physics, molecular and nuclear physics. This was followed by a demonstration of solving time independent scrodinger equation (TISE) for infinite square well potential using central divided difference (CDD) technique in Gnumeric, a free open source software, by Mrs. Sapna Verma of RKMV college, Shimla.

The following eminent speakers have delivered ingihtful lectures as part of the FDP:

1. Prof P.K. Ahluwalia, retired professor from HPU (Shimla), spoke on nine different quantum mechanics formalisms from well known wave mechanics, ladder approach and matrix mechanics to more advanced path integral and wigner distributions, along with their relevance and applications to various domains of physics.

2. Prof H.S. Mani, Chennai Mathematical Institute deliberated on the role of weak measurement in modern quantum physics by taking an example of spin-half system.

3. Prof C. Nagaraja Kumar, IAPT-RC3 President and Professor in Punjab University, has given insights into super symmetric quantum mechanics approach to iso-spectral rearrangement of information and its applications to a variety of non-linear physics problems such as solitons.

4. Prof V. Balakrishnan from IIT Chennai has discussed the particle in a box as a basic paradigm in quantum mechanics and stated that nanowires, quantum corals and quantum

- dots are good examples of such a system. Through the various 1D, 2D and 3D problems, he has illustrated several aspects of QM such as stationary states, uncertainty relations, eigenvalues, eigenfunctions, orthonormality, completeness on the one hand and the role of boundary conditions, symmetry, dimensionality, compactness of the space, etc on the other.
- 5. Prof V. Muralidhar. Retired from National Defence Academy, Pune has took us on a journey into how to approach quantum mechanics from a classical point of view. He started with difficulties in various interpretations of quantum mechanics and introduced us to stochastic electrodynamics as classical electrodynamics coupled to electromagnetic zero-point field. Then he gave us a quick introduction to geometric algebra and complex vector space, a mathematical formalism invented by him to explain how spin converts a classical harmonic oscillator into a quantum oscillator.
- 6. Prof Peter Cameron, retired from National Brokhaven Laboratories, USA has given us a new perspective with an introduction to quantum impedance model. He began with concept of photon impedance matching with electron impedance in Hydrogen atom and then introduced the idea of vacuum wavefunction in geometric algebra that lead to S-matrix of Dirac's QED. Many model outcomes such as origin of inertial mass, unstable particle spectrum in particle physics, gravitational mass, chiral anamoly, etc.

The afternoon sessions had introduction to various methods by Prof. O.S.K.S. Sastri and the demonstrations in Gnumeric were by members of PERSON (physics education research scholars online network), an initiative of IAPT-RC3. They are as follows:

- Dr Sunil Bansal (PU, Chandigarh) has given introduction to solving harmonic oscillator using Numerov matrix method (NMM),
- Dr Pawan Kumar Sharma from Government College, Solan has shown how to solve harmonic oscillator problem using matrix methods with sine basis (MMS) in Gnumeric.
- Dr.Vikram, Goswami Ganesh Dutta Sanatan Dharma College, Chandigarh has solved the Coulomb potential using both CDD and NMM.
- Prof. O.S.K.S. Sastri has shown how to solve Morse potential using NMM and MMS.
- Dr. K. Vijay Sai, Sri Sathya Sai Institute of Higher Learning has shown how to solve for neutron and proton single particle energies using Woods-Saxon potential by implementing NMM in Gnumeric.

A total number of 40 participants, from across the country, have successfully completed the FDP.

Report on workshop "Molecular Simulations using GAMESS" held from 14-20 March 2017

Dr T. Sairam from Inter University Acceeleartor Centre (IUAC), New Delhi acted as a resource person for the workshop. He has delivered overview lectures on importance of quantum chemistry methods and various numerical techniques involved in implementation of Gamess which were followed with demonstrations and hands-on sessions for 30 M.Sc final year students. A few RD students and faculty have also attended the workshop. The students have learnt how to prepare the input files using different formats and running the available numerical methods in the software Gamess. The outputs were visualised using Macmolplt software. The following simulation activities have been performed by the participants as part of the workshop:

- 1. Obtaining ab-initio potential of HCl molecule from which its bond length is obtained.
- 2. Obtaining ab-inition potential of CO₂ molecule and its vibrational frequencies
- 3. Obtaining ab-inition potential of H2O molecule and its vibrational frequencies
- 4. Obtaining ab-initio potential of various diatomic molecules and determine their properties

The workshop was very successful as all the students were able to perform the simulation assignments given to them based on Gamess.

School on Gravitation and Astroparticle Physics From 29-02-2016 to 12-03-2016

The School on Gravitation and Astroparticle physics was organized, jointly, by Department of Physics and Astronomical Science, Central University of Himachal Pradesh and Inter-University Centre for Astronomy and Astrophysics, IUCAA, Pune from February 29th to 12th March, 2016 at TAB Shahpur. The school began with formal inauguration on 29.02.2016 with Prof. Kuldeep Chand Agnihotri, Hon'ble Vice-Chancellor delivering the Inaugural address. About 25 young researchers from different institutes in India and abroad participated in the school. We had the opportunity to welcome eight distinguished speakers to deliver lectures in the school. We were fortunate to have world recognized speakers with expertise in different areas of Gravity and Astroparticle physics in the school.

The first week of the school mainly focused on advanced theoretical techniques in general relativity, gravity waves and numerical relativity. During the first week four speakers Prof. Sanjay Jhingan (Jamia Milia Islammia), Prof. Sanjeev Dhurandhar (IUCAA), Prof. Amitabh Virmani (IOP, Bhuvneshwar) and Prof. Sanjit Mitra (IUCAA) visited the school. The second week focused on cosmology and astroparticle physics. Four speakers Prof. Sanjeev Kumar Verma (DU), Prof. Subinoy Das (Indian Institute of Astrophysics), Prof. Debasish Majumdar (SINP) and Prof. Baba Potukuchi (Jammu University) delivered lectures during the second week. In total, around 35 lectures were delivered during the school including the presentation sessions of the students. All the lectures were videographed and will be uploaded on the university website, shortly. In addition to the regular lectures, three public lectures were, also, organized for the students and teachers of the schools and colleges in the vicinity of the university. The first public lecture was organized on 3rd March in which Prof. Dhurandhar introduced the public to the idea of Gravitational waves. This was a wonderful experience to the whole audience as he was among the pioneer scientists of the world who succeeded in detection of gravitational waves after almost 100 years of their prediction.

Second public lecture was held yesterday (11-03-2016) in which Prof. Majumdar took the audience on wonderful journey of our mysterious universe right from the Big bang. The title of his lecture was "*Universe: An unending enigma*".

Third public lecture of the series was delivered by Prof. Potukuchi in which he introduced the audience to wondrous world of elementary particle physics.

A very mesmerizing cultural program was, also, organized for the participants of the school in which Dr. Satish Thakur from Dharamshala college gave his musical performance.

We also organized an excursion on 6th March, to Mcleodganj and nearby places for the participants of the school.

Apart from the lectures, the enthusiasm of the participants was very encouraging. All the lectures were very interactive and well appreciated by the participants.

Overall this school was very successful event due to vibrant speakers, energetic participants and diligent efforts of organizers and volunteers.

Thanks all.
